

Giving Options for IDEA

Founded in 1982, the Illinois Drug Education Alliance (IDEA) is an effective grassroots force against alcohol and other drug use in Illinois. IDEA is a statewide, nonprofit (501c3) volunteer coalition of individuals dedicated to the educational purpose of promoting the goals of health-minded youth and the prevention of the illegal, unsafe use of alcohol and other drugs and unhealthy behaviors.

Volunteers and donors are the strength of IDEA and there are a variety of giving options to help IDEA accomplish its mission. Each donation is acknowledged with a personalized card, serving as a reminder of how much you care about IDEA.

The following options are explained below:

In Honor Of:

If you wish to celebrate an occasion or honor a friend or family member accomplishment make a special donation in their honor to support IDEA's work.

Memorial Gifts:

Honoring a person's memory is a wonderful way to celebrate their life. You can preserve their legacies by having their names promote the work of IDEA

Estate Giving:

Including IDEA in your estate plans secures the future of the work of IDEA. Estate Giving is a way to recognize individuals who have created gifts to IDEA through planned giving. By making a gift in this way, donors demonstrate their long-term commitment to the work of IDEA.

All contributions to IDEA are tax deductible to the extent allowed by law.
